Continuation Sheet (PTOL-303) 09/650,757

Continuation of 5. does NOT place the application in condition for allowance because: Kasai, according to Figs. 2-4, 11 and column 6, lines 4-52 clearly discloses that an incrementer for incrementing the count value of the counter depending upon the moving direction (see tracking signal 52 and the traversing direction of light spot) and the level of the tracking zero-cross signal determined by the level determiner (see edge pulse signal 53 and 54 and also see cross-seek control/jump control system for detials). Accordingly, Kasai does disclose all features as recited in claimed invention.
